## Colouring and Activity Page

Colour in the following page: you can use collage, crayons or colouring pencils, add patterns and textures to the land, sea and sky.

In the space below, draw a picture of yourself standing and singing. Think about how big it will be and where you want to put it on the background. Cut out your drawing and glue it to the coloured in page.

Next draw your own musical notes or cut out the ones provided and stick them to your page.
