

How to make an **EASTER CHICK**

For this activity gather together some easter eggs. Colour in the cutouts on the next page and then cut them out. To make an easter chick, add the eyes, beak, comb and wings to your egg - turning it from a plain egg into an easter chick! There are different sized cutouts for different sized eggs. Have fun playing with them to see which looks you like best. You can use glue or cellotape to make the pieces stick.
